

Whitepaper

Release notes & Changelogs

The whitepaper provides comprehensive information about Skyman Legends, including gameplay and other game-wise features such as the ecosystem, token economy, and especially the NFTs. It also shows details and progression regarding the development, creative and consulting teams. The whitepaper helps players keep up with further development of Skyman Legends and understand how the game's economy operates more quickly and accurately. The Skyman Legends's team will constantly update this whitepaper. The objective of all changes is to improve the quality and sustainability of the project.

[The Ultimate Hat-trick Season](#): It's football season, and Skyman Legends could not be more excited as the project builds up to a content-packed, football-themed Ultimate Hat-trick season. Skymanians can obtain up to 3 new skins from the Hat-trick bundle including either Durass or El Dragon, both of which will come with their respective new skin; there is also a chance that the bundle will unlock Cala, the Legendary hero. Moreover, each bundle buyer will receive a new skin of Raidon in addition to one of the heroes mentioned earlier.

Version 2022.9: Release 9- #TheNextSkyman

A new update will come with a PC launcher, a new landing page along with the opportunity for users to receive free NFTs.

- **The new Landing Page**: A new website UI has been rolled out for a fresher look and more convenience, especially for new Skyman Legends users as material sources for beginners are now available.
- **Gift Box**: When visiting the new landing page for the first time, users will receive a pop-up that will direct them to the marketplace so they can claim a gift box that comes with a 95% chance of winning an NFT hero.
- **PC Launcher**: A PC Launcher will allow users to access the game, the marketplace, and the support centre of Skyman Legends using a single portal

Besides giving Skyman Legends a new look, the September update also makes adjustments to the [Marketplace Quest feature](#) and the [Hero Trading event](#) on the marketplace. The update is the first step in the preparation for an upcoming game, and users are recommended to follow the community of Skyman Legends to keep up with the latest news.

Version 2022.5.1: SUMMER VIBES

- New Hero: Chef Octopus, a hero as a source of life, a must-have for the winning team.
- **New hero skins:** Skyman Legends is releasing up to 3 new skins based on the summer theme. One thing is guaranteed: These skins are going to remind the players what summer is all about enjoyment and fun.
 - Ghost Captain Meiko
 - Boomby Shark Culien
 - Lifeguard El Dragon
- **A New Map:** Treasure Island. The new map is going to be named “Treasure Island”, and it’s not only for battling but also for the players to enjoy the scenery and diversify their battle strategies by placing obstacles.
- **Daily Quests.** Skyman Legends players will be able to complete extra tasks every day and receive their well-earned rewards. These rewards can be used for upgrading heroes and purchasing items, which will boost the gaming experience.
- **Africa Server is open now.** A much smoother gaming experience is being delivered to our players in Africa.
- Skyman Legends community has expanded to [CoinMarketCap Gravity](#). CoinMarketCap Gravity is a one-stop-shop for crypto projects to engage with the community.
- Don't forget to take your beloved nickname by **changing the username in the Profile** cause The Summer Vibes update makes it possible.
- **[The 3rd SML Burn](#):** 22,100,000 SML burned.
- **[The 2nd SML Burn](#):** Skyman Legends fired up the Summer with the 2nd burning of the SML token. 128,000,000 SML has been burned to ensure the balance of the token. This amount of SML accounted for [more than 45% of the total SML in circulation in the market](#).
- **[SML Staking phase 2](#):** [The private sales](#) will open in May.

Down the line, we will continue to optimize the marketplace and landing page, making all information about Skyman Legends more accessible to new entrants and investors. *The Summer will be on fire.*

Version 2022.4: MEGA UPDATE

- The new Roadmap [announced](#)
- The first version of the [Code of Conduct](#) for Community was released.
- Custom Battle v2: the PvP mode is available for everyone. You can create a custom battle to compete with your friends and live stream your battles easily.
- New Hero: Cala comes to Skyman Legends. Take a chance to get this special hero asap by Cala Reveal Box on the [Marketplace](#).
- New skins: Elf Guardian (Shanna) and Godz-rilla (Kongkey)
- UI & UX changes: Users can check their battle rewards or gSML and gSML on the Marketplace. All contents related to in-game currency (gSML, gSML) are now moved to the Marketplace. Don't panic! NOTHING CHANGES ABOUT TOKEN or IN-GAME

CURRENCY; Just the in-game interface changed, including the Premium icon will be displayed instead of gSML / gSML.

- Vesting Safe moved to the Marketplace.
- The in-game Shop is available on the PC version.
- Staking: the Summary dashboard is updated.
- Claim SML token: players can claim once every 72 hours (changed from 48 hours). Claimable amount of SML has a minimum and maximum limits, which vary by different accounts' credibility (min 2000 > max 6000 SML)
- Watch ads or pay with Power Points (gPP) to use skills in the game
- Matchmaking, which was painful and mostly complained about by Skymanians, has now been fixed in findmatch time and more balanced matchmaking.

MINI GAME - SKYMAN WORLD

Mini Game is an entertaining playground for all Skymanians on the [Marketplace](#). Depending on the prize, players can buy the ticket with their gSML to earn gSML and gSML. Mini Game will update with new games shortly.

RISE OF HELIOS - ESPORT TOURNAMENT

Skyman Legends's very first eSport Tournament. Prepare yourself, gather your team right now.

- Total Prize Pool: 20,000 in BUSD (\$10,000 for each region)
- For all Skymanians in South America - LATAM (Apr 23-24) and South-East Asia (30th Apr - 1st May) regions
